CRNA

The Survey

LocumTenens.com conducted its Annual Physician and CRNA Compensation and Employment Survey in the early summer of 2006. Survey respondents represent CRNAs who practice on a locum tenens basis as well as those with permanent salaries. This report includes compensation and employment statistics for CRNAs, including:

- ♦ National annual compensation ranges
- ♦ Sources for finding jobs
- ♦ Time frame for making next job change
- ♦ Influencing factors for seeking a job change
- ♦ Insights and remarks about the practice of medicine today

Demographics for survey respondents include:

- ♦ Gender
- ♦ Years in practice

"Being a CRNA is a tremendously rewarding career with tremendous flexibility."

The Industry

The shortage of anesthesiologists is not the only factor making an impact on the delivery of anesthesia services. With fewer anesthesiologists and more surgical procedures, the need for Certified Registered Nurse Anesthetists (CRNAs) is growing at a fast pace. With a health care system striving to cut costs, coverage plans are recognizing CRNAs as a cost-effective solution to fill the gap and provide high-quality care.

According to an American Association of Nurse Anesthetist (AANA) Workforce Survey, 35 percent of respondents cited an increase in the number of CRNA positions at their facility. Forty-three percent reported open positions within the department, and 59 percent were actively recruiting CRNAs.

A National Center of Nursing Research study, mandated by congressional appropriations committees, reported the need for the educational system for nurse anesthetists to graduate 1500 students each year until the year 2010 to make up for the current shortage.

Time frame for making next job change

Top reason for making a job change

Worked as a locum tenens provider?

"Quality of life is a combination of compensation, flexibility of schedule, amount of time spent at the hospital, the work environment and the area in which one lives. All of these things must be factored in. One aspect alone would not be decisive."

" I love the challenge of giving anesthesia. I appreciate the job security. There are so many opportunities and the salary always gets better. What's not to love?"

"I love anesthesia, taking care of patients, and continue to gain more and more respect from doctors and nurses...I would do it all over again."

"I think I was more respected as a critical care nurse."
